### DREAMS AND GOALS COME

I will try to learn from experience to improve skills to meet the company's needs . I am looking for a competitive and challenging environment,where I can serve and make a career for myself. So if I could be part of your company, it would be one opportunities to expand skills and my knowledge.

Finally, I hope with the possibility that I could contribute something in your company's growth even if it is small.

I dream of becoming one Developer profession and turn it into passion.
